

Dear Ben and Micha,

Thank you so much for remembering Harry with a Tree for Isreal planting. I have expressed my sincere appreciation to the staff for the wonderful care given to Harry. Your state of the art facility with all its wonderful amenities, along with the staff, made our journey with Harry comforting. Finding this placement for him was truly a blessing.

I'm sure you are aware of just how difficult it was to come to terms that he needed a safe, loving environment. We definitely found this at the Oasis. Living through these two years was difficult, and especially this last year with the Pandemic added in. We admire how you handled this with the utmost precaution to keep all patients, staff and visitors safe.

Again, our sincere appreciation for all that you did for Harry and our family!

Sincerely,

Joy Reece, John Reece & Sue Savard
